THE AFFAIRS OF SOCIETY.

ARRIVAL AND DEPARTURE OF THE CALUMET CLUB.

A Representative Gathering of Chicago Society People Who Are Fond of Outdoor Sports—The Beautiful Club Rooms—Conviviality Mixed—A Fashionable Host—The Charitable Purpose at the Bottom of It All—Notes.

The Calumet Club gave its second set-to last night, and the closing of another was a remarkably fine one. The Calumet Club gave its first set-to in 1865, and it was such a grand success that it now bids fair to become a regular feature of the club. It has not been an annual feature during the whole time, but it has during the last four years, and it has been an established one ever since that introduced. Moreover, as the years have passed it has become more and more successful, and more and more perfect in its arrangements and display. More artists, and more of those who are interested in art and have private galleries have become convinced of it, and the result is necessarily a more beautiful and elaborate display of paintings.

And, outside of the artistic merits, it is a great office society. It was formerly considered necessary to have a great reception of the opening night to add to the social success, but that has died out some time from principle. The process was a cumbrous one. There was a reception, but it was "not receiving" in reality, as well as in name. The art exhibit, and not the reception, is now the principal feature of the opening night. Sometimes the gallery has been somewhat crowded, and only on the following days and nights of the exhibition has it been possible to receive the attention which the society's exhibitions ought properly to have. The opening afternoon and evening is for the artists.

Both of the last-named and a portion of the time between are occupied in the preparation of the exhibition. There were on Saturday last, or four consecutive or working days in which to get the pictures hung, everything else in the way of preparation having been completed. Of course, the hanging committee had to work all night, and they did it. Some of the pictures were not received until late in the afternoon, and the hanging committee had to work all night, and they did it. Some of the pictures were not received until late in the afternoon, and the hanging committee had to work all night, and they did it. The money market was strong, and large gains were reported in Chicago Board of Trade deals at 7 per cent. Sterling was firm and quiet. The New York stock market was generally active and lower at the close. Chicago & Northwestern and Pacific Mail were conspicuous. The Chicago produce markets were quite active, and prices were generally stronger, with good trading. Chicago Live Stock was quiet, and prices were lower. Hogs sold at 10@15c lower, the decline largely occurring after the morning session, and Saturday was dragged.

THE PRESIDENCY IN DOUBT.

The Democratic Executive Committee of the Presidential State met in the city yesterday to elect a Chairman in the place of John E. Finch, deceased, to decide upon the locality of their National convention next year, and to consider other business having for its principal purpose the enactment of compulsory registration legislation, and the destruction of the Republican party through an alliance of the Democratic party with all factions, disaffected or otherwise according to circumstances and locality, with the Democratic Democratic party.

There are under two important questions, however, which it is altogether probable the political Democrats did not consider, for the reason that if they had considered them at a moment when practical way it would not have been encouraging to their attempt to make prohibition a political issue. They did not, for instance, consider that in every case this year elected their ticket attempted to enforce good prohibitory constitutional laws. Even Constitutions, as in Michigan, Texas, Tennessee, and Oregon, they have met with an absolute failure. In the South, where prohibitory laws have existed a decided artificial, and even in Texas and Tennessee, but in South Carolina and Georgia. The late election in Atlanta was a staggering one, and will be set all over Georgia. The movement of a arrogant, high-handed law to the storm city will give high license a boom in that State, particularly in view of the failure that prohibition has proved where all the machinery was in the hands of Democrats. Two years of prohibition have shown that it does not prohibit, and that whatever else it does it does not prohibit the manufacture and sale for a price of drink to avoid get it. The years of high license, with the low fault of a dollar-a-glass, or a proposal, and show the difference between the rational and irrational methods of dealing with the drink evil. The committee will also probably fail to consider that though this is the off year in politics, when politicians usually go out and allow Democratic majorities to be piled up in safe States, the Democratic majority last year was not large enough, and Democratic carelessness might easily lose a State.

Of course the Prohibitionists of Massachusetts, in the recently elected State of Georgia, are confidently counted upon by the aggressive anti-A.P.A. Democratic leaders to secure control of the State. Under the law the opposition should be overwhelmed by the majorities of the Republican counties of the State. It can easier to the conditions of the proposition. Does the Democratic party through an alliance with Prohibitionists expect to secure control of the State? Is it expected that the Democratic party through an alliance with Prohibitionists will carry

WASHES AND FACES.

THE use of grease-paint by actors and actresses is disastrous to the complexion, and unless thoroughly removed from the pores of the skin, pimples and blotches appear. Eminent members of the profession say, Ivory Soap removes paint thoroughly and quickly, and restores the complexion to its natural freshness.

A WORD OF WARNING.

There are many white soaps said represented to be "just as good as the 'Ivory'"; they ARE NOT, for the all counterfeits lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

PARENTS.

In what kind of clothes do you send those attractive editions of yourselves — the noble, your darling? The holiday season and anticipations, and we are heard that the little copies of your noble selves need to be re-housed and cut in better shape than at present, so true to those of the artistic taste and good taste of their mothers. Now, we think we know your wants "like a book." In this line "The Clothier and Furnisher" — and why shouldn't we? Is the very date and hour we have studied the matter of dress for the boys, little and big, and the result, the "Boys'" — to avoid ever using the "Brown," if you will — found in our clothiers, "quiet," and very attractive stock of Fine Suits for boys in sizes from 4 to 10 years, and Overcoats in sizes from 4 to 12 years. Those through the following five, Fashion-plate samples, from our abundant stock, to which the great Boys' Department is the workmanship and style.

THE BELL

No merchant, however shrewd or careful, can be certain that *every* article in his stock is marked under the price asked elsewhere. It is The Bell's constant endeavor that this should be so with *every* garment upon its tables, and it is very seldom indeed that a price has to be "corrected" because of the discovery that some other concern is nearer it. Occasionally, however, it is possible to be ABSOLUTELY CERTAIN that the prices quoted are under the market, and that is where the difference between those prices and actual values is very great. Such is the case in The Bell's

Special Overcoat Sale
